PART 3

FEEDBACK FOR APE

APE wants to be as effective as possible. Please tell us about your experience of working with APE and give us any ideas about how we can make APE work better. We know that people are nervous about criticising their funders, so please be assured that we hugely value and welcome your response - even those that are critical and challenge us to change.

In particular, we would like to have your feedback on the following:

- Do people in the climate change sector know of APE's work?
- How can we promote ourselves better?
- Did the website tell you what you needed to know?
- Are the application forms easy to understand and fill?
- Did you find the application process, communications and receipt of funding efficient?

NOTES

- (i) In certain cases, APE may be prepared to grant further funding to bring a partially-completed project to fruition. However, this is strictly at the Trustees' discretion. If this is the case with your project, then please briefly explain the situation. Your case may then be considered for emergency funding at our next available Funding Round.
- (ii) If, due to unforeseen circumstances, the project folded after a certain amount of expenditure, then a reduced return of monies may be negotiable. If this is the case, we will need to see a budget of how the money was spent.
